

DEPARTMENT OF THE AIR FORCE
309TH AIRCRAFT MAINTENANCE GROUP
HILL AIR FORCE BASE, UTAH

MEMORANDUM FOR: E-Corp and prospective E-Corp Clients

FROM: 309 AMXG/QP

DATE: 3 October, 2005

SUBJECT: E-Corp Performance on contract #FA8201-05-C-0092; Bldg. 225; Repair Floors/Maintain Arched Hangars at Hill AFB

I would like to express my gratitude and appreciation for all the fine work performed by E-Corp on the Bldg. 225; Repair Floors/Maintain Arched Hangars contract. In a three week period of time, E-Corp walked the job, priced out the construction activities, negotiated the pricing and mobilized onto the site. Within 45 days from mobilization, E-Corp had completed 50 percent of the \$1.55 million dollar job.

The speed and quality of the entire E-Corp Team made a favorable impression on our entire management staff. E-Corp and their subcontractors completed this project ahead of schedule, allowing our critical maintenance mission to continue with minimal disruption. E-Corp worked closely with our staff to adapt to the fluid aircraft maintenance environment by ensuring aircraft and equipment movement in and out of their construction zones.

Mr. Dave Stevens, 309AMXG Deputy Director, recently recognized E-Corp for their achievements by awarding them our Group "coin". E-Corp is the first contractor that Mr. Stevens has publicly recognized.

I have worked with many different contractors during my career. E-Corp's performance places them in a totally different league than most contractors that we deal with. Their professionalism, dedication, expertise and constant communication with our facility and production managers have impressed me since day one

I am extremely impressed with their desire to deliver a top quality end product. All of their personnel were easy to work with and paid attention to even the smallest details. I look forward to working with E-Corp again in the future.

A handwritten signature in cursive script, reading "Jeffrey K. Nusser", is positioned above the typed name.

JEFFREY K. NUSSER, Chief
Quality Assurance and Process Improvement Branch
309th Aircraft Maintenance Group
